

Software Solutions Overview

TEXbase Service and SaaS Platform:

- TEXbase provides a Software as a Service, web-based platform to manage material in a secure, centralized location
- TEXbase does not require additional IT resources, server installation, or capital expenditure
- TEXbase is cost effective with flexible per user, per month payment options
- TEXbase is fast and easy to implement, configuring and training new clients in a matter of weeks
- TEXbase provides instant upgrades on a regular basis at no additional cost
- TEXbase will integrate critical material development information into any existing PDM/PLM or ERP system
- Comprehensive training with unlimited email and phone support
- No Software maintenance fees

Materials Management

Key Benefits:

- Decrease Material Cycle Time (MCT) by **37%**
- 75% Improvement in Data-Recall Efficiencies
- Increase Efficiency while Reducing Operating Expenses

TEXbase enables apparel design and development teams to more effectively manage fabric development and material sourcing. Your Product Development Team will increase their efficiency, creating more resources for innovation!

- Centralized, web-based material data available instantly to your entire global team
- Track Status and Issue Reports on Fabrics and Specs Instantly
- Quickly create and clone performance specifications and instantly update your supply chain as standards improve or change via *TEXbase Connect*
- Comprehensive management and instant visibility into sample ordering and inventory
- Enhanced management and tracking of supplier information
- Instant tracking and reporting on material development projects
- Search, view and import fabric details directly from your mills' fabric libraries via *Connect*
- Streamline project management with added visibility into; project status, deadlines and team efficiency - maximizing the productivity of your existing workforce

Color Management

Key Benefits:

- Accelerate Color Workflow to Increase Efficiency by **35%**
- Automate Color Data Management
- Real-Time, Global Color Team Collaboration

Streamline bulk color data, seasonal palette and lab dip management. Real - time color management, tracking and reporting reduces your lab dip cycle time and eliminates redundancy.

- Eliminate static Excel Worksheets
- Track status, manage workflow and issue reports of lab dips instantly
- Instant visibility of lab dip status by season
- Track historic lab dips to eliminate duplication
- Link lab dips to seasonal palettes and products
- Reduce operational expenses through efficient lab dip information management
- Global color teams can view lab dip status by season, product, color or iteration

The Global Leader in Collaborative Material Development Software

Software Solutions Overview

Lab Data Management

Key Benefits:

- Reduce Development Time from 3 weeks, to 3 days
- Increase Testing Efficiency by **55%**
- Track Status & Issue Reports on Tests and Specs Instantly

Increase the quality of your materials by clearly defining test standards for your entire supply chain. TEXbase creates an environment where your testing practices and test standards are consistent both internally and externally.

- Efficiently create lab test requests directly from Performance Specifications
- Quickly access and modify test request templates, increasing the speed and accuracy with which new submits are entered
- Analyze, compare and track historic lab tests by material, season, and concept
- One-click customized reporting to clearly communicate test status
- Monitor supplier performance to better manage and improve quality standards
- Enhance data integrity and maintain testing history to create the necessary audit trail to comply with restricted substance legislation

TEXbase Connect

The *Connect* global platform gives Brands real-time access to their suppliers R&D, production, and product data, allowing more effective collaboration to drive enhanced innovation and product quality.

- Collaborate in real-time, world-wide, with your entire supply chain
- Reduce MCT (Material Cycle Time)
- Reduce or Eliminate Development Shipping Costs
- Collaborate with your supply chain to sign performance specifications electronically
- View complete fabric libraries from all your mill partners
- Import fabric data and submit lab tests online, directly with your suppliers

Product Overview

Product:

- **TEXbase Pro** -
- **TEXbase Corporate** -
- **TEXbase Enterprise** -
- **TEXbase Connect** -
- **TEXbase Complete Connect** -

Description:

Includes Materials Management

Includes Materials Management, and either Lab Data *or* Color Management

Includes Materials Management, Lab Data *and* Color Management

Shared Material Libraries; Included in All TEXbase Products for Apparel Brands

Send/Receive Performance Specs and Lab Tests with your Supply Chain

Streamlining Material Development for the Worlds Leading Brands
